

Take Back the Capitol

The 99% Converge on Capitol Hill December 5-9

In December, Congress is set to deliberate devastating cuts that could destroy millions of jobs and slash unemployment benefits for those still looking for work. Meanwhile, Washington politicians continue to protect tax breaks for big corporations and billionaires. It's clear that now, more than ever, we need to make sure the 99% are heard on Capitol Hill.

Join thousands of 99%-ers who are coming to Washington, DC December 5-9 to take back the Capitol from corporate control. By day we'll show up at Congressional hearings and the offices of K Street lobbyists, and by night we'll crash in church auditoriums, union halls, and in tents around the Capitol. Together, we can remind Congress they represent ALL Americans – not just the richest 1%!
