

**Bain Capital &
Mitt Romney:**

JOB KILLERS

Founded by Mitt Romney, Bain Capital has made billions in profits by killing American jobs. Since 1984, Bain has pursued a perverse form of capitalism where companies are bought up, downsized and bankrupted -- then sold off to the highest bidder. While Romney and other executives pocketed millions, **thousands of hardworking families lost their jobs, their homes, and their life savings because of Bain's unchecked greed.**
