

# Shut Down The Corporations!

**Pfizer**  
ALEC  
#F29  
American  
Legislative  
Exchange  
Council

## Why protest ALEC and Pfizer?

- Through ALEC, behind closed doors, corporations (like **Pfizer**) hand state legislators the changes to the law they desire that directly benefit **their bottom line**. Along with legislators, corporations have membership in ALEC. Corporations sit on all nine ALEC task forces and vote with legislators to approve “model” bills.
- Legislators then go back to their office and introduce the bills as their own ideas and innovations, **never disclosing** that the bills originate from the needs and demands of the corporations.  
(Florida Rep. leaves ALEC in proposal, Feb2012)
- **Pfizer** made empty promises to New London based on the **eminent domain** ‘land grab’ of the **Fort Trumbull** neighborhood – but once the tax abatements ran out, so did **Pfizer**, leaving a neighborhood demolished and citizens without recourse. (Google: Kelo v. New London)
- **Pfizer** was court ordered to pay \$2.3 BILLION for **Health Care fraud** in 2009 (largest ever), but used a subsidiary company to take the penalty of Medicare/Medicaid EXCLUSION so they could continue **business as usual!** (see QR code on left – use your smartphone to scan)
- **Pfizer** conducted experimentation on **children**, and STILL conducts **animal testing** in spite of stockholder objections.
- **Pfizer** is the second largest **polluter of the Thames River**, dumping over 217,000 lbs of chemicals in 2007 alone.

## HUMAN NEED BEFORE CORPORATE GREED

We are peaceful, We are Non-Violent, and We are NOT Powerless!  
*We are fighting back.*
